

FTP user guide for TCSI Data Extracts

Web Transfer Client

To access and download your data files from the department's Web Transfer Client system, please follow the steps below:

If you are accessing this service for the first time

• Click on **View folder** from the invitation link received via email. This will take you to the Web Transfer Client page. (Please check your junk folder if you have not received this email.)

Register new acco	unt	
Username		 Minimum password length: 10 characters Must contain at least 4 characters from the following categories:
Password		Lowercase
Password required		 Numeric Non alpha-numeric (e.g.,!,#,\$,%)
Confirm Password Register		Must not contain 8 or more characters from the user name
English 🕶	Already have an account?	

- Your username will be the email address to which the invitation link was emailed, and you will need to create a password following the requirements on the screen (10 characters with at least 1 uppercase, 1 lowercase, 1 number and containing 1 special character i.e. !@#\$%).
- Note that usernames and passwords are both case sensitive.
- Once you click **Register** you will be sent an email to complete your registration. (Please check your junk folder if you have not received this email.)

Account created

Please check your email for account verification instructions.

- Click on Verify account in the second email received.
- Your account will be verified and you will be taken to your data extract folder.
- To download your files, click on the folder and open the zip file. Multiple files can be downloaded at once by ticking the box to select all of the files, or you can individually tick each file.

Submit

• Enter your username and email (both fields will require the same email address) and click submit.

Request submitted

Your request to reset your password has been submitted. Please check your email account in a few minutes.

- You will then receive an email with a link to reset your password.
- If you have any issues please contact <u>TCSISupport@education.gov.au</u> for support.

How to import your CSV file into Excel

To import your CSV files into Excel you will need to use the text import wizard in Excel and follow the steps below:

Note that these instructions are for Microsoft Excel 2016

- From the Data Tab, click From Text/CSV (found in the 'Get & Transform Data' group)
- double click the file to be imported
- the Text Import Wizard dialog will open
- choose **Delimited**
- to retain headings, check the box My data has headers, click next
- select the Comma Delimiters (and deselect Tab Delimiters), click next
- Select Text for all Column data format, click finish
- Import data into Existing worksheet = \$A\$1
- Click OK to complete
