# TCSI February 2026 Provider Webinar

Wednesday 25 February 2026

# Agenda

## Tertiary education providers:

- Address validation updates
- Navigating large data sets in TCSI Analytics

## Higher education providers (only):

- Reporting returning students
- 2025 Student data verification
- TCSI Analytics 'Verification' uplift

# Address validation updates

VET

HEP

PIR

# Address validations updates

## Issue

- Three **warning** Real Time validations (RTVs) 10188, 10250 and 10251 are not triggering as expected for some reported address data.

## Solution

- A real-time connection to [Geoscape Geocoded National Address File](#) (G-NAF).
- Fix the three RTVs.
- Two new Schedule Validations.
- Fix scheduled for **Friday 27 February**

## Outcome

- A more reliable method to validate address details - which will help TCSI users report accurate student and VET delivery location addresses.
- More accurate equity measures.

# Address validations updates

## Residential address checks

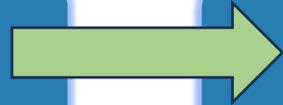

**RTV10250**

**Provider type:**

VET / HEP

**Description:**

The residential address data does not form a valid address in Australia.

**SV00130**

**Provider type:**

VET / HEP

**Description:**

Student residential address does not pass address validation.

**Logic:**

System will check a reported residential address if the country code is in Australia and all address fields have been populated.

Schedule validations will run with census dates from 1 Jan 2025.

# Address validations updates

## First residential address checks

**RTV10251**

**Provider type:** VET / HEP

**Description:** The first residential address data does not form a valid address in Australia.

**SV00129**

**Provider type:** VET / HEP

**Description:** Student first residential address does not pass address validation.

**Logic:**

System will check a **first** reported address if the country code is in Australia and all address fields have been populated.

Schedule validations will run with census dates from 1 Jan 2025.

# Address validations updates

## Delivery location (VET Only)

**RTV10188**

**Provider type:** VET only

**Description:** The delivery location data does not form a valid address in Australia.

**Logic:**

System will check a reported address if the delivery location country code is in Australia and all address fields have been populated.

# Reporting returning students

## Continuing students

- The student would be readmitted into the same course admission. In TCSI, do this by setting the Course Outcome Code ([E599](#)) to 'null' and continuing to report any further unit enrolments.

## Commencing students

- If the returning student is considered a [Commencing Student](#), a new course admission packet should be reported and the Course of Study Commencement Date ([E534](#)) should be the date that the student commenced that new attempt.

## Be mindful

- Review the [Commencing Student](#) glossary page to work out if a student is commencing.
- Note the way you report returning students may impact your provider's Glidepath calculations as part of the new Managed Growth Funding system and Needs-based funding allocations.

## What is data verification?

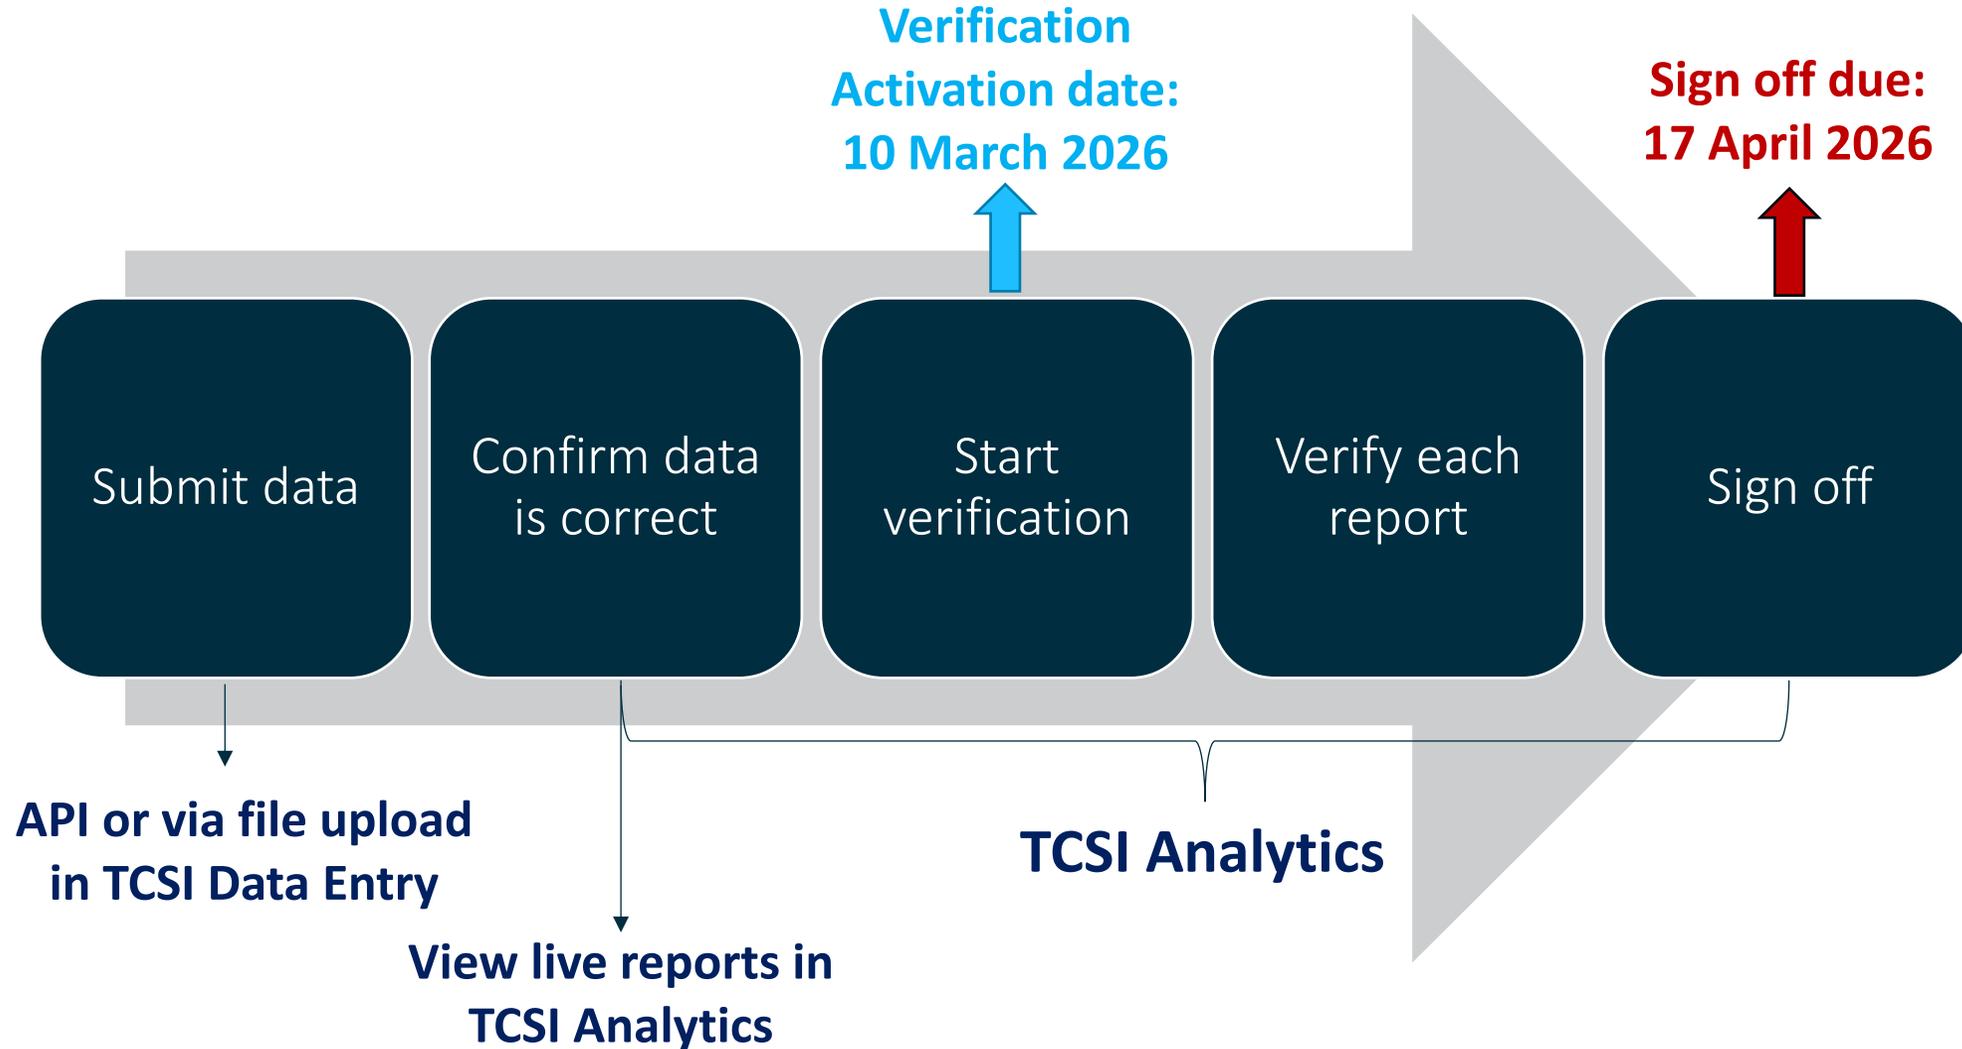

- Data verification is part of a provider's reporting requirements under the *Higher Education Support Act 2003* (HESA). It is a declaration that the data reported are complete, accurate and finalised.

## Why is data verification important?

- The department uses the verified data to reconcile your funding and to publish information on your institution, including data on course completions and success rates.
- The verification process gives you a final opportunity to check your data carefully, as changes cannot be made to the 2025 Student data collection after it is signed off and finalised.

### Data Verification

Verification is a declaration that the student and staff data reported by providers to the department is complete, accurate and finalised.

To access relevant data verification information and instructions, providers need to first determine their provider type. Providers who have been approved under the *Higher Education Support Act 2003 (HESA)* can offer HELP loans. Non-HESA-approved providers cannot offer HELP loans and are considered to be TEQSA Provider Information Request (PIR) providers.

Please check the table below and click on the provider type that matches your organisation:

## Refreshing

- Status after the provider selects **REFRESH DATA** to update the reports.
- Providers refresh their reports when errors are detected after starting verification, and the data has been corrected in TCSI live data.
- Refresh is an overnight process and the collection will not be available while the refresh is in progress.

The screenshot displays the TCSI Analytics interface for 'Data verification: HEP Students 2023'. The page includes a navigation bar with 'Home', 'Live Reports', 'Verified Reports', 'Dashboards', 'Data verification', and 'Resources'. A search bar is present in the top right. The main content area shows a 'Verifying' status with a search icon and the text '1 / 12 reports verified'. Below this, it states 'You have 8 days to verify 11 reports and sign off the collection', 'Collection last refreshed 20/02/2026 01:40 AEST', and 'Sign off due date 26/02/2026'. A 'Refresh data' button is highlighted with a pink box. A table below lists reports with columns for Report, Status, Verified on, Verified by, and Action.

## Signed Off

- Status appears when the collection is **SIGNED OFF**.
- Requires PRODA role: **TCSI Analytics – Signoff**.
- When all providers have signed off, the Collection is **FINALISED** by Education.

The screenshot shows the TCSI Analytics dashboard for 'Data verification: HEP Students 2023'. The status is 'Verified', indicated by a star icon and the text '12 / 12 reports Verified'. A message states: 'You have 6 days to sign off the collection. Collection last refreshed 22/02/2026 01:41 AEST. Sign off due date 28/02/2026'. There are buttons for 'Sign Off' and 'Refresh data'.

This close-up highlights the 'Verified' status (star icon) and the 'Sign Off' button, which are circled in pink. A pink line connects the 'Sign Off' button to the 'Signed off' status in the next screenshot.

The screenshot shows the TCSI Analytics dashboard for 'Data verification: HEP Students 2023' with the status 'Signed off', indicated by a checkmark icon. A message states: 'Collection signed off by UAT Account1. Sign off date 22/02/2026. Re-open collection'. Below is a table of reports with their status, verification date, and verifier.

## Re-Open

- **Re-Open**: updates the status after a sign off was performed in error. The status will return to **VERIFIED** if the department accepts the request.

The screenshot displays the TCSI Analytics interface for 'Data verification: HEP Students 2023'. At the top, there is a navigation bar with links for Home, Live Reports, Verified Reports, Dashboards, Data verification, and Resources. The user is logged in as 'UAT Account1' with a provider code of 'XXXXX'. A search bar is available for report names or numbers.

The main content area shows a 'Signed off' status for a collection, signed off by 'UAT Account1' on '22/02/2026'. A 'Re-open collection' button is highlighted with a pink box. Below this is a table of verification reports, all with a 'Verified' status.
